MICRO ENCAPSULATED BIO INOCULANT FERTILIZER

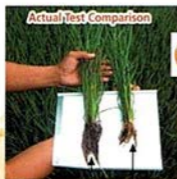

- Enhances plant performance to improve growth, increase fertilizer absorption and water uptake efficiency
 - Longer root length and more root hairs
 - Much taller, healthier rice plants and more productive tillers
 - Produces more developed grains per panicle
 - Increases yield per given area of rice production
- Alleviates biotic, abiotic and physiological stresses in germinating seeds and seedlings

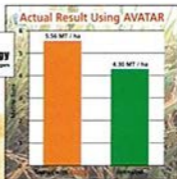

- Quicker recovery from transplanting shock
- Greater resistance to drought conditions

Dosage: One 30 g full sachet of **AVATAR Bio Inoculant Fertilizer** is to be mixed with 45 kilograms pre-germinated rice seeds.

- **1 Sachet good for 1 hectare**

Treated with AVATAR Untreated
Actual test demonstration result.
